

# MEDENTRA® CORPORATE PROFILE

**Medentra®** is a leading British brand introduced by Smart Instruments (UK) Ltd, England, which is involved in manufacturing and distributing a wide range of dental, surgical, orthodontic and implantology instruments covering a huge variety from diagnostic, restorative, endodontic and periodontal instruments from dental and diagnostic, general surgery, bone and orthopedic surgery, gynecology, maxillo-facial, cardiovascular, tonsil, urology, lung surgery, plaster and various other general instruments from surgical. Our quality instruments precise range has been developed by having close contacts with surgeons, dentists, hygienists, laboratory professionals and a well developed supply chain supplying them with our precision crafted instruments that we believe, other than supplier/customer relation, is more than a great medium in order to keep our products up-to-date.

**Medentra®** ensures the manufacturing of its products with highest quality AISI (American Iron and Steel Institute) standard materials under ISO and CE regulations. This code of standard practice helps us develop and maintain the stringent quality assurance at every stage of manufacturing from raw material to finished product that is indeed a remarkable achievement in order for **Medentra®** to produce high quality products with extremely competitive prices, which undoubtedly eliminates the need for dentists and surgeons to look for low quality alternatives.

All **Medentra®** instruments are highly finished and keep optimum aesthetic and corrosion resistance – our *EconoSeries* reusable dental and surgical instruments are guaranteed for 3 year, and *PremiumSeries* reusable dental and surgical instruments cover lifetime guarantee (please refer to our warranty policy for further details)

The company, being located in England, has always been focused on the top-end specialist sector of dental and surgical instruments market. **Medentra®** is proud of its rich corporate heritage, strong tradition and the product range that is continually being expanded to incorporate the newest technologies and trends. Medentra's expertise in research, development and manufacturing of high quality instruments aims at offering always innovative solutions for the dentists' and surgeons' everyday challenges.

All our reusable instrument products are exclusively manufactured, processed and packed for Medentra, supplied with guarantee/warranty cards packed with each product individually. All individual cards inside carry the instructions for care and handling of the instruments in order to enjoy exceptionally well and high precision performance.

Currently **Medentra®** instruments are exported in more than 50 countries on the globe every year and are well appreciated in all the professional dental circles. Our quality conscious attitude coupled with selection of finest quality materials and the craftsmanship of our highly skilled workmen makes it possible to developing a wonderful blend of modern and traditional instruments making and ultimately offering extremely durable and economical priced products.

Headquartered in England, **Medentra®** is distributing its products through a number of distributors around the globe and its subsidiaries Medentra Germany, and Medentra USA. **Medentra®** continues to develop its dealer/distributor network throughout the UK and abroad offering industry leading products

and excellent service to its distribution partners in terms of most competitive prices and highly professional marketing and promotional materials.
